ARGO TRANSLATION'S
WORKFLOW

ARGO TRANSLATION

Translation

STEP 1

Linguist translates in Translation Management System

Editing

STEP 2

Linguist edits in Translation Management System

Yes ← **Client Review?** → **No**

Client reviews 2-column MS Word file.

Review and implementation of client markups, handled by Argo's linguists.

After linguist implements the changes, Argo updates the translation memory.

STEP 3 (Yes)

DTP

STEP 4 (Yes) / STEP 3 (No)

Argo handles page formatting.

Proof

STEP 5 (Yes) / STEP 4 (No)

Linguist proofs PDF.

DTP

STEP 6 (Yes) / STEP 5 (No)

Argo handles markups from proof.

Final

STEP 7 (Yes) / STEP 6 (No)

Final files are created.
